

Best Practices. -2023-24

Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Best Practice No 1: -

1. Title of the Practice: Vermicompost

2. Objective of the practice:

To convert organic waste collected from campus into compost.

3. The Context:

Vermicomposting contains plant hormones like auxins, gibberellins and enzymes etc. which stimulate plant growth and discourage plant pathogens. It improves crop yields.

4. The Practice:

Pit is formed at site of botanical garden of college. It is filled with organic waste which has a capacity of 400 Kg. It is done on a phased manner and takes 45 days.

5. Evidence of Success:

50-60% of waste convert into compost. The compost is used in campus as well as in farms for enriching the soil. We also provide skill training to farmers, gardeners and students.

6. Problems encountered and Resources required:

The major problem is Scarcity of water.

Staff and Students visiting the Vermicompost Unit.

Title of the Practice:-‘Bandhilaki’

Objectives of the Practice: - ‘Bandhilaki’ is one of the major best practices of the college which has been conducting for the past 46 years. The topic of the 'Bandhilaki' was based on the theme ‘Watchal-2023-24’.

The context: -

- 1) To review the autobiographical memories of the students.
- 2) To learn something from the experiences of their lives.

The Practice: -

The topics were decided by the committee. Students wrote articles on autobiographical incidents and major events of their past life. Student should acknowledge about their daily lives and try to analyze the own personalities. Students should review their lifestyle. They should prepare to express their own experiences in the form of an article.

Evidence of success: -

A total of 82 articles have been published on the given theme.

Problems Encountered and Resources Required

The students could not easily express their own lives. They had faced problems about the technical elements of the autobiography writings.
