'Staff Academy'

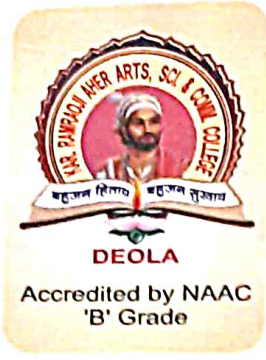

Staff academy is a regular activity in the college. It has been observed that a teacher in any discipline is only an expert in his field and is unaware of other subject knowledge. In attempt for every teacher in the institution to be an all-rounder in terms of subject knowledge, institute decided to conduct staff academy. Every teacher should deliver a lecture in front of the entire faculty, so that knowledge is shared among all of them. Under this initiative, experts in the field of higher education and technology are invited to guide the teachers.

The purpose of this initiative is all faculties should know what is happening recently in every domain of knowledge.

With this practice, our faculty members are aware of the latest with all disciplinary information and are exceptionally knowledgeable as a result of their interdisciplinary understanding.
